- 800kg load rating when closed
- 400kg capacity extended load rating

**"It has completely changed the game"**

I have the T-slide in my new Ranger and it has completely changed the game, no longer are you having to crawl into the back to find something that has rolled forward. Used for my work as a contractor, keeping all my tools accessible and also for play, perfect in the shooting field and for those fishing trips north of the border. I would never be without this for as long as I have pickups. Can't recommend enough, the guys at gearmate were also extremely helpful! Keep up the good work.
